

Mater Health Services comprises several hospitals, health centres, a world-class medical research institute and pathology and pharmacy businesses—all with one aim—to provide *Exceptional Care*.

## What makes us different

Our concerted pursuit of innovation—to discover, improve, adopt and adapt—differentiates Mater as a leader in the areas of health, education and research.

By integrating these fields into the delivery of exceptional healthcare services, Mater is committed to the development and maintenance of healthy communities.

## Mission and Values

Mater is dedicated to providing healthcare services through a sincere commitment to our core values of *Mercy, Dignity, Care, Commitment and Quality*.

A Catholic not-for-profit ministry, we are committed to an holistic approach to healthcare in response to ever-changing community needs. We continually strive to improve how we deliver patient care, keep our knowledge and skills relevant, advance our understanding of illness and health and manage resources effectively.

In the spirit of the Sisters of Mercy, Mater offers compassionate service to the sick and needy. Following the example of Christ the healer, we commit ourselves to offering these services to all without discrimination.

## Our areas of focus

Mater provides exceptional care across a broad range of clinical areas with a strong focus on cancer and neuroscience, women's health and newborn services, and the care of young adults and adolescents.
