### About the Roles:

The Registered Nurse provides evidence-based and contemporary patient-centred clinical care in collaboration with other members of the multidisciplinary healthcare team. The delivery of care extends to patient advocacy with particular consideration to the physical, emotional and spiritual needs of patients that contribute to optimal clinical outcomes.

The Registered Nurse is responsible for ensuring the safe and efficient management of care within the scope of practice and professional guidelines that include, but may not be limited to: legislation, regulations, standards, codes, qualifications, registration and clinical competencies.

**Full-time, part-time or casual** applications are welcome.

### **What you'll be doing:**

All of our clinical teams support each other to:

- Provide high quality patient care applying nursing clinical skills and contemporary knowledge to support optimal care outcomes through care coordination, collaboration and communication within scope of professional competence with adherence to Mater policies, procedures and guidelines;
- Partner with patients and their support persons throughout the episode of care to provide patient-centred care with regard to personal and/or cultural needs and preferences;
- Undertake clinical care assessments and develop, or revise, care plans that support optimal clinical outcomes with regard to patient personal and/or cultural needs and preferences and Mater guidelines;
- Acknowledge and support the value and effectiveness of multidisciplinary care teams and diverse care environments by delegating tasks to team members commensurate with their scope of professional practice and expertise;
- Ensure episode of care documentation is in accordance with applicable Mater frameworks, policies, procedures, work instructions, forms and guidelines;
- Undertake, or contribute to, comprehensive discharge planning to ensure patients and their support persons, where applicable and appropriate, are provided with adequate access to education, resources and appropriate community services access where required;
- Assess and respond to arising clinical issues, adverse outcomes and care complaints within scope of practice; and
- Coach, mentor and support colleagues and nursing students where appropriate with regard to own level of expertise.

### **About you:**

To be successful in this role, you will demonstrate the following criteria:

- Current AHPRA registration as a Division 1 (Registered Nurse) with no practice restrictions;
- Digital and computer proficiency, extending to Microsoft 365 applications;
- Full vaccination against COVID-19 and the ability to provide appropriate evidence as prescribed by [Services Australia](#) prior to commencement;
- Minimum of one year post graduate perioperative or Day Surgery experience. However, if you have limited perioperative experience but have transferrable skills training is available; and
- Australian Citizenship, permanent residency, a current work Visa with no restrictions or an applicable ANMAC occupational code if seeking Visa sponsorship.
