

Mater PathResults user quick guide

Mater's new PathResults portal will go live on November 23, 2024. The following guide covers use of the new portal in a web browser. Information on mobile app access will be provided shortly.

For information on how to register and login to the portal, please refer to the **Mater PathResults Registration Guide**.

Patient Search

When you log into the portal you will start at the **Patients** screen. Searches can be conducted using the following search criteria.

Patient Details

Patient ID

Doctor

Patient Demographics

A patient can be searched for using any combination of the demographic fields.

Patients

Search Criteria

Patient Details

Surname

First Name

Middle Name

Date of Birth Sex

Date format DD/MM/YYYY

Search Clear

Patient ID

A patient can be searched using a combination of **Hospital** and **Hospital Number** if they have been registered at that facility.

Patients

Search Criteria

The Dashboard

The **Dashboard** displays a list of results, by patient, requested by you based on your provider numbers. The list will display the most recent reports first. Requests that you have been copied on will display on the **Copy To Requests** tab.

Dashboard

Ordered Requests

Copy to Requests

URN	Date of Birth	Sex	Collected Date	Collected Time	Request	Panels
SEQ-4012601	06 MAR 2003	Female	29 OCT 2024	17:30	24-5021128	CRP A1C CEM (TNI)
SEQ-4013146	09 SEP 1952	Male	29 OCT 2024	14:07	24-5021085	CRP A1C CEM (TNI)
SEQ-4013120	07 JUN 1977	Male	29 OCT 2024	12:06	24-5021108	CRP A1C CEM (TNI)
SEQ-4013147	20 JUL 2006	Female	29 OCT 2024	11:40	24-5021105	CRP A1C CEM (TNI)

If the dashboard does not display your results, please contact the Mater Pathology Call Centre on (07)3163 8500 for assistance.

Navigation and viewing results

Loading the Patient Profile

On commencing a search, depending on the search type, you may be presented with more than one patient on the **Search Results** list.

Click the **View** button next to the required patient to view a list of requests.

If you select the wrong patient, or you wish to return to your search results list, click on **<<Patient Search** (above the list of results).

Report Status

The result status is indicated by an icon next to the test name

Pending results

Preliminary result

Finalised result

The status will display against each test on the request

Viewing Patient Reports

To view a report, click on the request and the report will open. If more than one test has been included on the request, you can view the additional reports by clicking **Next**.

To return to the patients results list click **<<Patient Profile**.

If a report is not available, a pending notification will appear in the top right of the screen.

Special Reports are available on the Special Reports tab.

Special reports provide aggregated or alternative views of the data in the standard reports.

If you require assistance with registering, logging in or using the portal, please contact the Pathology Call Centre on (07) 3163 8500.
