

Mater PathResults registration quick guide

Mater's new PathResults portal will go live on November 23, 2024. Setting up Mater PathResults on your computer is a two-step process consisting of registering your interest and completing setup once you have received your verification email from Mater Pathology.

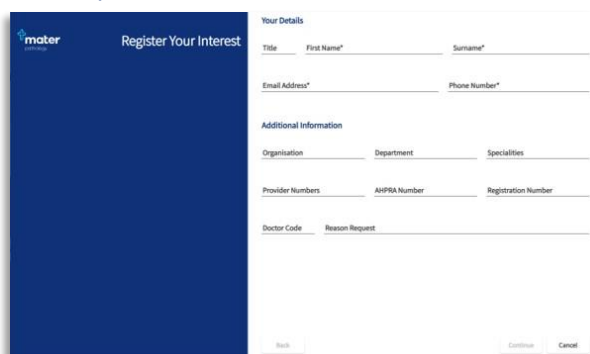

If you have already received an email invitation, start on step 4.

Register Interest

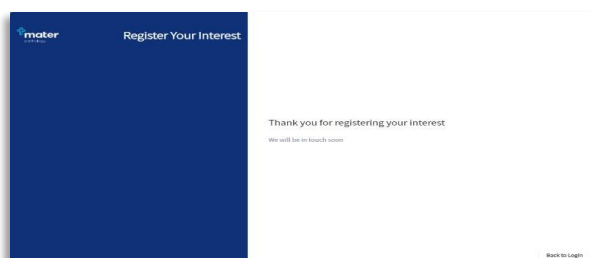

1. Visit pathresults.mater.org.au and click **Register Interest**.

2. Enter your details on the **Register Your Interest** page and click **Continue**. (mandatory fields are marked with an asterisk)

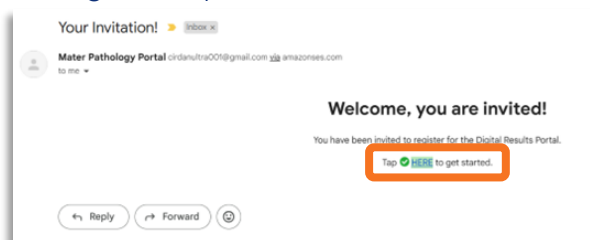

3. Mater Pathology will now verify your request. You can close your browser tab.

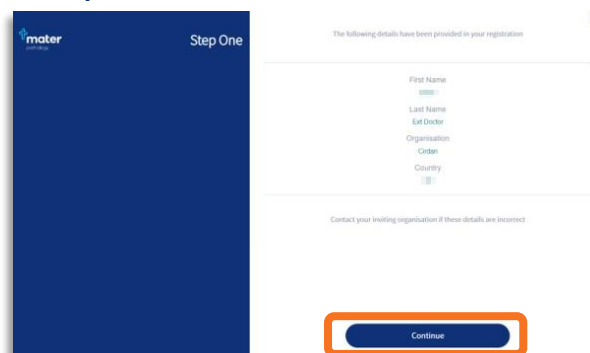

Complete Registration

Note: it is recommended that you complete these steps on a device other than your smart phone as you will need to scan an on-screen barcode with your phone to complete the setup of multi-factor authentication.

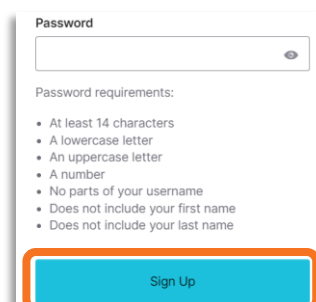

4. When your request has been verified by Mater Pathology you will receive an email invitation. Click the **Here** link to continue the registration process.

5. Check your details, click **Continue** and **Accept the Terms and Conditions**.

6. Create your password as per the password requirements and click **Sign Up**.

Setting up your multi-factor authentication

- PathResults uses multi-factor authentication (MFA) to login.

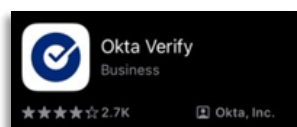

You can choose:

Google Authenticator or

Microsoft Authenticator or

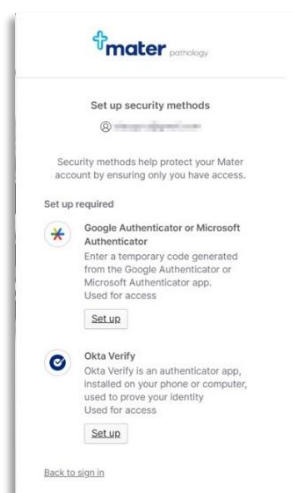

Okta Verify

If selecting and downloading Okta Verify from the App store, use the following option.

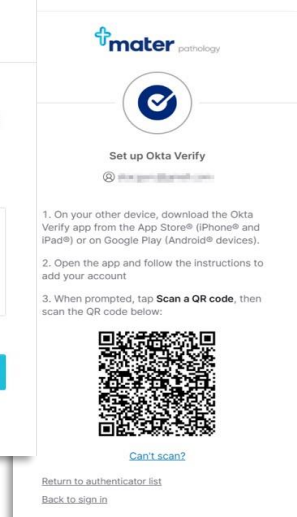

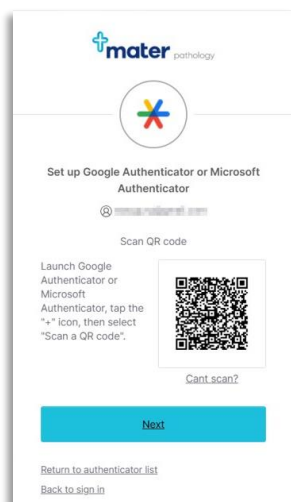

Ensure your preferred MFA application is installed on your smart device before proceeding.

Click the **Set up** button for your chosen MFA solution, a screen with a barcode will appear.

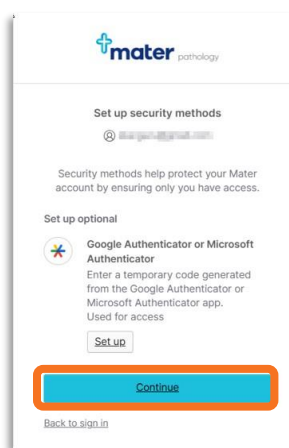

- Launch your MFA application on your smart device - scan the QR Code that has appeared on your screen.

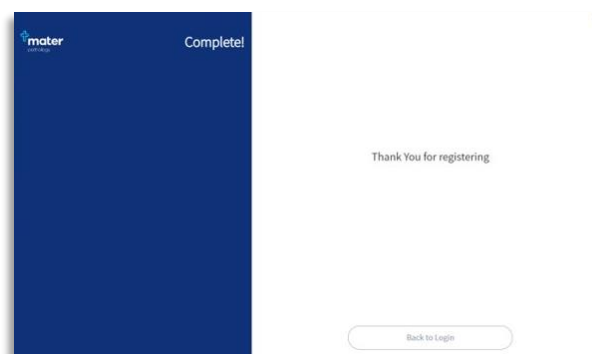

- Complete the details within your authenticator application. **Note:** If you wish to receive push notifications when logging into the portal, ensure this is enabled.

- Optionally, you may choose to **Set up** a second MFA option or click **Continue** if this is not required.

- You have now completed the registration process and can log in to the portal.

- If required, remember to bookmark the PathResults login page.

- Please refer to the **Mater PathResults User Guide** for tips on how to use the portal
